## Road Improvements

Historically, portions of the Pony Express Road located west of the 8-Mile community has flooded over the road or washed out the road during spring run-offs or heavy rainfall. Last week, the road maintenance operators were able to install a new culvert pipe to prevent another washout and improve the safety of the road. The project is not 100% completed due to unforeseen circumstances but the work will resume once the equipment is available. When traveling the gravel roads, please drive safely and always use caution.

 FY 2010 Plans

## Request for Proposals update

During the first part of November, the Tribal Transportation Planner advertised for bid, 3 road projects. The project RFP notices were posted in the Indian Country Today newspaper and website, the High Desert Advocate weekly newspaper and their website, and both the Salt Lake Tribune and Deseret Morning News publications as well as their websites. We have received a great deal of interest in the 3 projects. Because of the Thanksgiving holiday, the deadline for the proposals has been moved to Monday, December 07, 2009. As of December 1, we have received 2 proposal packages from 2 different Engineering firms. Once we reach the deadline date and the bid advertisement is closed, each proposal will be thoroughly read and a selection will be made

based on several different criteria rankings. The Firm selection as well as the progress updates will be available in each monthly newsletter

**Also visit our website at [www.goshutetribe.com](http://www.goshutetribe.com) for information about the Tribe, Tribal Programs, Tribal staff, links, electronic versions of the monthly newsletter and much more!**
